

Himachal Pradesh Forest Ecosystem Services (HP-FES) Project

Project Objective: To enable Himachal Pradesh Forest Department (HPFD) to introduce Forest Ecosystem Services (FES) approach into the forest management systems of the state.

9 Demonstration Sites of the HP-FES Project and their Plan Focus

The 3 pillars of the HP-FES Project

Micro plans

Focus on forest management zones for priority FES

Working plan

Including stakeholders in prioritising and planning for FES and their drivers

Long Term Ecological Monitoring (LTEM)

Monitoring of biological diversity and ecosystem services as a base for improving decision making to ensure sustainable forest management for Himachal Pradesh

Capacity Development

Trainings for Communities and HPFD

Fire management training

Ecotourism

Processing Non Timber Forest Products (NTFPs)

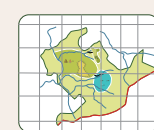

Trainings for HPFD

Assessment

Analysis

Mapping
