

Enhancement of Smallholder Spice Farmers' Capacities in Sustainable Farming

2020 – 2025 December

We aim to make production practices economically, socially and environmentally more sustainable by increasing the capacities of spice farmers.

Expected results:

To increase the net income of smallholder farmers from certified spices by 20%.

To engage 50% women farmers in trainings.

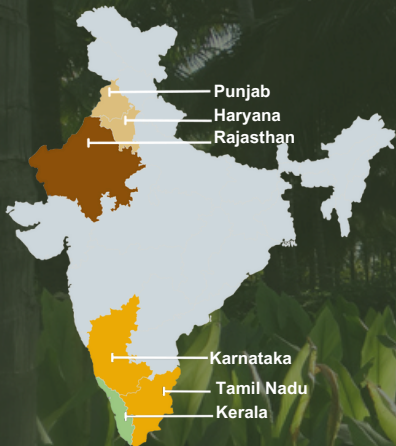

To increase participation of women farmers to 40%.

To train 2070 farmers on sustainable spice farming practices and agri-business management.

Implementation of McCormick Women Empowerment Framework (M-WEF) in five spices supply chains.
